

1. Coaching Maintenance Management

Plan to computerize mechanical and electrical maintenance activities of coaching depots, which includes preventive/scheduled and breakdown/non-scheduled maintenance round the clock. There are more than 200 coaching depots in Indian Railways across the length and breadth of the country. CMM intends to provide a 24x7 up system which will cater to their requirements both technical and non technical. The system is also being planned to be integrated with other IT systems of Indian Railways.

Benefits/Advantages Planned

- Paperless system
- Ease of data entry (use of Mobile App)
- Avoiding duplicacy and ensuring uniformity.
- Easy history tracking.
- Effective monitoring of KPI's at different levels.

Current Status

Module wise In house development initiated

2. Coach Mitra

To provide single window assistance to the train passengers, in case of any coach maintenance related issue such as cleanliness, linen, disinfestations, rodent, watering, petty repairs including minor TL & AC attention. Currently being used in 28 divisions of Indian Railways.
