Aug- 2008	2009	2012	2013	2014

Timelines:

S.N.	What	Since	Value (Cr.)	Status
1	Detailed Estimate for ERP based MMIS	2012	50.00	MOU under Finalization with NR

Main achievements and features:

- PKI (Digital Signature) based Web application of Indian Railways.
- 3-tier Central Architecture based on Java (J2EE).
- Processes simplified due to uniform approach, human errors minimised.
- Improved Transparency, completion due wider reach, Reduction of Procurement cycle, Cost savings etc.
- Ease of access vendors can put bids 24*7 from their places, no physical threat to stop participation.
- Improved quality of offers and material, mediators avoided.
- Security tested by STQC, Seamless Integration with SBI Net banking.
